

Rudolf Bone
Memory of form
April 22- May 16 2010

Opening reception: Thursday 22 April 2010 / 7pm – 10 pm

Galeria Konstant is pleased to announce the personal exhibition of artist Rudolf Bone b. 1951, who lives and works in Oradea / Romania. An artist whose approach has been remarkable, through ingenuity and simplicity in the 80s, constantly participating in artistic events organized by the Workshop 35.

After a silence of 15 years Rudolf Bone has a comeback with expansive new projects. Works - installations made of metallic materials which are defined by dynamism, and true the way that they reconstruct a given space, aiming for breaking the boundaries defined in art, namely: bis, di, tri and quadridimensional, using multiple circumstantial reformulations that try to release from form both metaphorical and structural material.

The artist Bone under the title Memory of form aims at a kind of performance - work in progress, a exhibition in a continuous change at both the ideational and plastic reformulation.

The out of the ordinary exhibition of the sculptor offers three stages of transformation that the viewers can witness , which will bring the matter the artist originally designed the works from to it's initial form, filming and keeping only the processes of systemic reformulation.

stg.1. April 22, displaying works roller flattened;

stg.2. April 29: exposure of an assembled block that will contain all the works,

stg.3. May 6: exposure of three customizable metal bars(ingots) made out of the melted three metals .

Curator: Constantin Costea
